OUR SERVICE FLAG**PASS SOME SUNSHINE AROUND.**

Below is an editorial in the June
Farm and Fireside that is worth
reading. The point made is that
perhaps there is such a thing as too
much criticism, too much of hitting
the man in power with the big stick.

Sunshine warms and makes crops
grow. Farmers know this of course.
Why not then apply this fact to the
man in public office and, instead of
raining criticism on him, pass a little
sunshine around. It surely would
do no harm and it might do a whole
lot of good.

"Some man in a place of power
does not walk just as we think he
should walk. Down comes the big
stick over his head. The skulls of
many men who are trying to do the
best they can are sore from top to
bottom.

"And it doesn't pay. No man was
ever made a stronger man or a bet-
ter man by being found fault with
constantly. That sort of thing par-
alyzes and brings defeat. Helpful
criticisms is a good thing, but mere
faultfinding doesn't get us anywhere.
Sunshine warms and makes crops
grow. The farmer has had to come in
for his share of the criticisms in the
past and it hurt him more than any
other one thing that ever happened
to him.

"There is sunshine enough to go
around, if we all let it shine. The
trouble is not so much that we want
all the sunlight for ourselves as it is
that we keep it from shining on the
other fellow. If we only knew it,
the grandest and the best thing any
of us could do would be to say to
our fellows: 'Come on out here, Old
Man! There is plenty of room for us
all to stand in the sunshine. I be-
lieve in you; you believe in me; and
we both know that this is a good old
world.'

"If we did this we would lift more
shoulders together; we would lift
more and kick less. And that would
bring the glad day for which we
have all been looking."

Negro troops, supported by allied
troops, took part in the brilliant charge
of marines over the top at Chateau
Thierry Tuesday, in which the
Americans captured 350 Huns and
15 or 20 guns. It is all right to take
the guns but the boys are bringing
back to many prisoners.

Ten air raids were made in ten
days on German airdromes, 14 tons
of bombs being placed where it was
thought they would do the most
good for the allies.

The enemy's fourth offensive since
March 21st has been filled with un-
pleasant surprises and more of them
are still in store.

It would have been worth a trip to
France to have seen American negro
soldiers rounding up that bunch of
90 baby killers Tuesday.

Bob Wilson fell from a church he
was building at Sumner, Ky., and
was killed.

"A SPLENDID TONIC"

Says Hixson Lady Who, On Doc-
tor's Advice, Took Cardui
And Is Now Well.

Hixson, Tenn.—"About 10 years ago
I was..." says Mrs. J. B. Gadd, of
this place. "I suffered with a pain in
my left side, could not sleep at night
with this pain, always in the left
side..."

My doctor told me to use Cardui. I
took one bottle, which helped me and
after my baby came, I was stronger
and better, but the pain was still
there.

I at first let it go, but began to get
weak and in a run-down condition,
so I decided to try some more Cardui,
which I did.

This last Cardui which I took made
me much better, in fact, cured me. It
has been a number of years, still I
have no return of this trouble.

I feel it was Cardui that cured me,
and I recommend it as a splendid fe-
male tonic.

Don't allow yourself to become
weak and run-down from womanly
troubles. Take Cardui. It should sur-
ely help you, as it has so many thou-
sands of other women in the past 40
years. Headache, backache, sideache,
nervousness, sleeplessness, tired-out
feeling, are all signs of womanly trou-
ble. Other women get relief by taking
Cardui. Why not you? All druggists.

ONE-THIRD DEAD ALREADY.

John Barleycorn is dying gradually
but speedily and surely, according to
the figures which have been tabulated
from the ratification votes of the
States ratifying the national prohibi-
tion amendment. Out of a total
of 36 states necessary to make the
amendment effective, 12 have already
ratified the amendment. And all this
has been done within the short space
of five months. Out of a total of
1520 votes cast by the legislatures of
the 12 states ratifying, 1223 were
cast in favor of nation wide prohibi-
tion and 297 against it. Only one
or two states have rejected the
amendment on a straight ratification
vote.

VETERAN OF THREE WARS.

Lieut. Everette S. Overstreet, son
of Capt. and Mrs. W. S. Overstreet,
of Woodbury, but formerly of Bow-
ling Green, has served in three wars,
although he is only 39 years old. His
first experience was in the Spanish-
American War, during which conflict
he served in both Cuba and the
Philippines with honor and distinction.

He saw service on the Mexican
border and is now in France.

Two boys named Lon Meadows
went to France from Whitley county.
One died of a wound last November
and the other was killed in battle
in the recent drive.

**FARM CROPS
REPORT ISSUED**

BY UNITED STATES DEPART-
MENT OF AGRICULTURE, BU-
REAU OF CROP ESTIMATES.

Louisville, Ky.,
June 8, 1918.

Bumper crops of wheat, oats, rye,
barley hay and less important crops
are now in sight for both Kentucky
and the United States as the farm-
er's part in helping win the war.
This has been accomplished by the
farmers in spite of the shortage of
labor, increased cost of raising the
crops, and other hindrances.

Reports on the acreage and condi-
tion of the corn, potato and tobacco
crops are not yet ready for publica-
tion but are being prepared and will
be announced as quickly as reliable
estimates can be secured.

Apples, pears, peaches and berries
are the only crops on which full in-
formation is now available that do
not show an increase in the crop
prospects for this year compared to
last year and the average.

Prospects for the United States
crop of spring and winter wheat are
now 931,000,000 bushels as com-
pared to 650,828,000 bushels pro-
duced in 1917, while the 1918 crop
in Kentucky promises to be 13,800,-
000 bushels compared to 9,000,000
bushels in 1917 and an average of
9,434,000 bushels.

The United States oat crop now
promises to be 1,500,000,000 bush-
els compared to 1,587,286,000 bush-
els in 1917, while the Kentucky oat
crop now promises a total yield of
8,250,000 bushels compared to 8,-
060,000 bushels in 1917.

Hay promises a good yield from
an increased acreage.

Fruit in Kentucky suffered from
the severe winter. Many peach trees
were partially or entirely killed by
cold and raspberries and blackber-
ries suffered similarly, though not
so seriously. Apples promise a fair
crop, pears from one-third to one-
half crop.

H. F. BRYANT,
Field Agent.

FOUR KILLED.

Buffalo, N. Y., June 12.—Philip
D. Rader, of San Francisco, and
Robert Connor, of Los Angeles,
were killed by the fall of an airplane
at the Curtiss aviation field here
Monday. Rader was one of the old-
est flyers in this country. He served
with the British Flying Corps in
1914 and 1915, returning to the
United States to become an instruc-
tor. Connor was a student.

Aradina, Fla., June 12.—Lieut.
Benjamin Heiland, of Marietta,

Pa., was killed and Cadet Caston, al-
so of Pennsylvania, was seriously hurt
at Dorr Field Monday in the fall of
an airplane in which they were fly-
ing. The machine was up only about
100 feet.

Aberdeen, Miss., June 12.—Lieut.
Clarke Owen, of Lansing, Mich., sta-
tioned at Payne Field, West Point,
Miss., was instantly killed and a fly-
ing companion seriously injured
late Monday when their airplane
side-slipped and fell about 100 feet
near Muldon, Miss. Aviation au-
thorities at Payne Field declined to
make public the name of the injured
flier.

WEALTHY PACKER IN KHAKI

Nelson Morris in the uniform of a
private is shown here in charge of the
selected men sent to camp by local
board 13 in Chicago. He was in the
quota that left for Camp Grant, where
he will be trained for service in the
artillery branch of the National army.
Nelson Morris is a millionaire packer
and chairman of the board of directors
of Nelson Morris & Co.

Wm. Taylor was drowned at Ver-
sailles while in bathing.

Glories of Swiss Alps.

The Gormeront is an unpretentious
peak in this royal company of the Va-
lala Alps. But it is the center of a
wonderful concourse of mountains and
glaciers. Most wonderful of these is
the world-famous Matterhorn, but-
tressed against the sky. It is almost
15,000 feet high, with its head reared
cloudward abruptly from the sun-
kissed valleys. To the east its front
is precipitous, to the west it shoulders
out with softer curving lines, until a
little imagination makes of it a lion
roaring at the rising sun.

The mountains are but a part of
this picture. In the valley below is
the giant Gormeront glacier, fed by the
great glaciers that hang from the sides
of the Monte Rosa, the Ryskam, the
Twin, the Breithorn and finally from
the Matterhorn itself, before it in turn
pours its gray turbid flood into the
Visp—the brawling, noisy river of the
valley of Zermatt.

Cherished Offspring.
"You can see that love is blind—"
"Huh?"
"When you observe what some fond
parents hopefully enter at a baby
show."—Louisville Courier-Journal.

SMALLPOX IN GERMANY.

A dispatch from The Hague quotes
a neutral who has arrived from Ger-
many as stating that an epidemic of
black smallpox is raging among the
workmen of the Krupp plant at Es-
sen, with four or five fatal cases oc-
curring daily. Vaccination of every-
one is being compelled. The outbreak,
the dispatch adds, is attributed to un-
derfeeding and insanitary conditions.

NEWPORT LAW INVALID.

Washington, June 11.—Kentucky
decrees sustaining a Newport, Ky.,
ordinance levying annual "license"
taxes upon the Postal Telegraph-
Cable Company for use of streets
and alleys were reversed today by
the Supreme Court. The telegraph
company contended that a congress-
ional act of 1866 giving telegraph
companies free use of post roads
prevents imposition of municipal li-
cense taxes.
